

# Truth and Reconciliation Speaker Series

## Pathways to Truth & Reconciliation

In follow up to the Truth and Reconciliation Summit held October 2016, community members shared their desire for a continual education series to learn more about Indigenous culture, history and knowledge.

*Pathways to Reconciliation*, has speakers share what they have learned about the Action of Reconciliation through their own journey, through case studies, and reveal the successes and barriers they encountered along the way. We believe that pathways to reconciliation must always be grounded in the **truth** before we can advance to reconciliation and along the path, intent and implementation may differ. These are the stories we have invited our speakers to share this season.
